SYNTHETIC TRAINING ONLY - NOT AN OEM MANUAL

foil presentation mismatch: cause

Section ID: SYN-SEC-019

Logical document: SYN-DOC-004 | Version: 1.0 | Logical page: 1

Equipment: SYN-EQ-005

Failure mode: SYN-FM-010 | Referenced fixes: SYN-FIX-010

BEGIN SECTION TEXT

Fictional training evidence for SYN-FM-010: Fictional fault: foil position inconsistent. The seeded simulator correction is SYN-FIX-010 (Simulator correction: foil presentation mismatch), using SYN-PART-010. Synthetic simulator only; no real maintenance authorization. Follow site-approved procedures and qualified review.

END SECTION TEXT

SYNTHETIC TRAINING ONLY - NOT AN OEM MANUAL

foil presentation mismatch: contrast

Section ID: SYN-SEC-020

Logical document: SYN-DOC-004 | Version: 1.0 | Logical page: 2

Equipment: SYN-EQ-005

Failure mode: SYN-FM-010 | Referenced fixes: SYN-FIX-010, SYN-FIX-025

BEGIN SECTION TEXT

Fictional training evidence for SYN-FM-010: Fictional fault: foil position inconsistent. The seeded simulator correction is SYN-FIX-010 (Simulator correction: foil presentation mismatch), using SYN-PART-010. SYN-FIX-025 (Simulator alternate-cause check: virtual count recipe mismatch) is a plausible symptom-overlap decoy; it does not resolve this seeded cause. Synthetic simulator only; no real maintenance authorization. Follow site-approved procedures and qualified review.
